Subject Index:

Volume 34 Number 1 - 3 January - December 2014

Issue 1

- Effect of irrigation times of sodium ascorbate on bond strengths to bleached enamel using two adhesive systems 1
 Dental caries and oral hygiene status among 6-8 years old schoolchildren in Hanoi and Langson cities, Vietnam 13
 Effects of disinfection procedures on surface quality of compound impressions and the resultant gypsum casts 19
 Fracture resistance of endodontically treated teeth restored with dual-cured resin composite within root canal at different depths 28
 Microtensile bond strength of etched fiber post surface bonded to treated root canal dentin 37
 Comparison of dent-teeth saver, milk, water, NSS and HBSS on viability of PDL cells 46
 Porcelain veneers in severely tetracycline-stained teeth: A clinical report 55
 Restoration of maxillary anterior bridges with ovate pontics design: A case report 70
 All-ceramic systems in Esthetic Dentistry: A review 82

Issue 2

- Fracture strength after fatigue loading of root canal treated central incisors restored with post and direct composite build-up 103
 Systematized bracket-enamel adhesion test 114
 Effect of cement film thickness on shear bond strengths of two resin cements 122
 Clinical evaluation of class II high-viscosity glass ionomer cement and composite resin restorations in primary molars: one year result 129
 The effect of thickness on the contrast ratio and color of veneering ceramics 137
 Cytotoxicity of glass ionomer cement containing monocalcium silicate compound comparing with white ProRoot® MTA and Ketac™ molar on human pulp cells 144
 Eagle's syndrome and associated pain in head and neck region: A case report and review literature 157
 Effects of orthognathic surgery on pharyngeal airway space: A literature review 165
 Invisalign update: A review of articles 174
 เรื่องวุ่นๆ เกี่ยวกับรุ่นของทันตแพทย์ 181

Issue 3

- Prosthetic rehabilitation of orbital defects: A review of 110 cases 197
 The effect of denture cleansing solutions on the retention of pink Locator® attachment: 1 year simulation 204
 Short-term evaluation of mini-implant retained removable partial denture 215
 The potential of copper alloy as alternative material for post and core applications 225
 Prevalence of cracked tooth in a group of patients at the Faculty of Dentistry, Mahidol University 234
 Oral health literacy among mothers of pre-school children 243
 A comparative study of the cemental surfaces of teeth with and without periodontal diseases by scanning electron microscopy 253
 Characterization of physiologic occlusion 263
 Health and oral health factors related to quality of life of the elders in Ninh Kieu district, Can Tho City, Vietnam 270
 Scanning electron microscope characterization of abrasion in human teeth 279
 Alveolar distraction osteogenesis: a systematic literature review 289
 Changes of the transverse dental arch dimension, overjet and overbite after rapid maxillary expansion (RME) 301
 The association of buccal keratinized tissue width and periodontal biotype on soft tissue surrounding dental implant 311
 Are educational games more effective than traditional teaching for promoting learning in medical and dental undergraduates? 321
 Influential factors in students decision making to enter dental profession at Mahidol University 330
 Dental graduates and dental student's choice of specialties and factors influencing specialty training selection 338
 Multidisciplinary approach of congenitally missing maxillary canines: A clinical report 347
 Effect of high concentration lidocaine for mandibular teeth anesthesia: Review literature 364
 Evaluation of the proliferative effect of clinacanthus nutans glycerine and moringa oleifera seed oil extraction on human gingival fibroblast cell line 373
